ASSISTANT TO NURSE.

Miss McNamara to Aid Miss Taber at American Thread Mills Plant.

The first aid department of the American Thread mills in this city, which was established December 6, 1915, has been a great benefit to the employees. The department consists of three rooms, one in No. 1 mill which is the headquarters, one in No. 4 mill and one in No. 2. This work is in charge of Miss Harriet Taber, a graduate nurse of the Massachusetts general hospital. There have been no serious accidents since the department was established but there have been many calls for minor injuries, such as removing splinters, bruises, etc. Miss Taber had been doing the work unassisted until Monday when Miss Agnes F. McNamara of this city, a graduate of St. Joseph's hospital was engaged as an assistant to Miss Taber.

Since December Miss Taber has had about four hundred calls and has attended to about 1,000 dressings. In January there were sixty-two calls and three hundred and seven dressings; in February one hundred and forty-six calls and five hundred and seventy-seven dressings; in March one hundred and seventy calls and five hundred and forty-three dressings. She has attended to an average of from twenty-five to twenty-nine dressings a day. Her duties also include making house calls on the patients in dress wounds. In January she made 18 such calls, in February 9 and in March 28 calls. Now that Miss Taber has an assistant she can devote more time to making house calls and when away Miss McNamara will have charge.

SAVE YOUR HAIR! 25 CENT BOTTLE STOPS DANDRUFF

EVERY BIT OF DANDRUFF DISAPPEARS AND HAIR STOPS COMING OUT.

TRY THIS! YOUR HAIR APPEARS GLOSSY, ABUNDANT, WAVY AND BEAUTIFUL.

Thin, brittle, colorless and scraggy hair is mute evidence of a neglected scalp; of dandruff—that awful scurf. There is nothing so destructive to the hair as dandruff. It robs the hair of its lustre, its strength and its very life; eventually producing a feverishness and itching of the scalp, which if not remedied causes the hair roots to shrink, loosen and detach the hair falls out fast. A little Danderuff tonight—now—anytime—will surely save your hair.

Get a 25-cent bottle of Knowlton's Danderuff from any drug store or toilet counter, and after the first application your hair will take on that life, lustre and luxuriance which is so beautiful. It will become wavy and fluffy and have the appearance of abundance, an incomparable gloss and softness; but what will please you most will be after just a few weeks' use, when you will actually see a lot of fine, downy hair—new hair—growing all over the scalp.

Danderuff is to the hair what fresh showers of rain and sunshine are to vegetation. It gives right to the cool invigorates and strengthens them. Its exhilarating and life-producing properties cause the hair to grow long, strong and beautiful.

The death of Mrs. Frances (Fry) Roode occurred at her home in Griswold Monday morning after an illness of three weeks. Death was caused by bronchial pneumonia.

There are ten grandchildren, Mrs. William McCluggage, Mrs. James McArthur of Jewett City, Mrs. Sydney Rathewson, and Dorothy Sidney and Raymond Roode of Plainfield; these being the children of the late C. HOW OFTEN DOES YOUR LAMP NEED CLEANING?

Your lamps, oil cookstove or oil heater will not need cleaning half so often if you fill them with clean, reliable oil—Socony (So-CO-ny) Kerosene Oil.

Very often the lamp is blamed for smoking, smelling and forming wick crust, when it is really due to the use of inferior oil.

Kerosene is not all alike by any means—any more than all butter is alike. Or all flour, or all sugar.

Socony Kerosene Oil is the name of the Standard Oil Company of New York's best kerosene. It is manufactured by improved refining methods, and every gallon conforms to certain fixed standards of quality.

Say "Socony" to the grocer's boy when he comes to take your oil can. Look for the Socony sign on your grocer's window. It is a quality sign and one of the easiest ways to recognize a reliable dealer.

We recommend the following oil burning devices as the best of their kind: New Perfection Oil Cookstoves and Water Heaters, Perfection Smokless Oil Heaters, Rayo Lamps and Lanterns.

CHOICE BETWEEN FLOATING MINES AND GUNS OF BRITISH.
 Precarious Predicament of a Norwegian Sailing Vessel.

New York, April 10.—The Brabloch, a Norwegian sailing vessel, which arrived today from Kolding, Denmark, reported escaping from a choice of destruction between floating mines and guns of a British cruiser when she was beating through the passage between the Orkney Islands and Scotland.

When off the coast of Scotland the Brabloch encountered winds so heavy that she was driven into the Orkney passages, which, unknown to her captain, are mined and closed to all but naval vessels.

When half way through a British cruiser ordered the ship to lay to. Being at the helm of a "windjammer," and a gale blowing, the captain declined to maneuver in the dangerous waters. Four shots from the cruiser still failed to convince him that he was in more danger from the cannon than from the mines and reefs and he kept on. It was not until he reached open waters that he heaved to and received a boat from the pursuing cruiser.

The naval officer threatened to take the Brabloch into a prize court but when the captain convinced him that the ship was in ballast and bound for New York for a munitions cargo for England, he allowed her to proceed.
